- Muddler

Directions

- 1 Place watermelon and sugar into a pitcher or glass big enough for all the ingredients.
- 2 Mash the two ingredients together using a wooden muddler or a wooden spoon.
- 3 Stir in the sake.
- 4 Pour the sake and watermelon mixture into 8 shot glasses that have been $\frac{1}{3}$ filled with crushed ice ahead of time.
- 5 Shooter up!

Serving Tips

- ✓ The trick to this one is muddling all the ingredients well so every shot gets little bits of watermelon!

Fun Fact

- ✓ While traditionally thought of as a hot drink in America, several types of sake are also best served chilled!
